Re: Industrial Refrigeration Energy Conservation Seminar

December 19, 2006

Dear Marcus,

I would like to thank you for conducting our recent one day seminar on energy conservation in industrial refrigeration. It was an overwhelming success, with over 70 attendees representing a wide spectrum of end users from the food processing, ice rink and chemical industries.

The presentation was extremely well organized and delivered at a pace that kept the audience engaged and enthusiastic. The end-of-day survey results were overwhelmingly positive and we have had additional positive feedback from our customers in the ensuing days. The seminar has stimulated a number of inquiries for further studies and capital projects targeted at reducing energy usage.

CIMCO enjoyed working with you to develop and present this seminar, and we continue to recommend your additional on-site services to our clients.

Yours truly,
